● VOLUNTEERING

02/2021 – CURRENT Çanakkale

GDG Google Developers Group - Çanakkale

GDG (GOOGLE DEVELOPER GROUPS) ÇANAKKALE

As a graphic designer at GDG (Google Developer Groups), I've been doing a lot of work in graphic design and social media. In the field of design and production, the design materials are kind of the same, but we have to make the final products look well.

So let's get some information about Google Developer Groups:

GDG (Google Developer Groups) are Google-supported developer groups that follow technology, especially Google technologies, and develop themselves and train their participants or organize events on these issues. To learn more about the GDG program, visit <https://developers.google.com/community/gdg/>

● DRIVING LICENCE

Driving Licence: B

● ABILITIES AND EXPERIENCES

Here you can find a list regarding my abilities and experiences:

- **Web Development:** Expertise in building high-end landing pages and custom web applications tailored to company needs, utilizing frameworks such as Node.js, Next.js, React, and various others.
- **Front- and Back-End Development:** Proficient in developing robust front- and back-end solutions based on a company's services and specific web development requirements.
- **Server Setup and Management:** Experienced in configuring and deploying servers for web applications, including setup of Node.js environments, cloud platforms like AWS or custom Ubuntu servers, and server maintenance for optimal performance and security.
- **Version Control with GitHub:** Skilled in using GitHub for version control, managing repositories, collaborating on codebases, implementing branching strategies, and integrating with CI/CD pipelines.
- **Database Integration:** Proficient in integrating and managing databases such as MongoDB, PostgreSQL, or MySQL to support scalable web applications.
- **DevOps Practices:** Knowledgeable in basic DevOps tasks, including automated deployments, containerization with Docker, and monitoring tools to streamline development workflows.
- **API Development:** Experienced in designing and building RESTful and GraphQL APIs to facilitate seamless data exchange between front-end and back-end systems.
- **Graphic Design:** Skilled in creating digital and print designs for marketing materials to support company branding and promotional efforts.
- **Social Media Marketing:** Specialized in LinkedIn-focused strategies to enhance professional networking, engagement, and visibility.
- **Photography and Video Production:** Experienced in producing high-quality photos and videos aligned with company needs for content creation and marketing.
- **IT Support and Maintenance:** Competent in providing technical support, system maintenance, and troubleshooting to ensure smooth operations.
- **Branding and Software Development:** Currently building expertise in branding and high-end software solutions in my role as a web developer and IT support specialist in Germany, with in-depth knowledge of the German market.
